Digital Business Solutions | Asia Pacific

Microsoft Technology Services

Leverage our resources and expertise to maximize the benefits of Microsoft's leading technologies for your organization

> " We focus on providing reliable, efficient and adaptable services and solutions to our clients that form the foundation for strong **relationships and ensure we provide optimal value with relevant technologies for their businesses.**

Services overview

As a certified Microsoft Partner, our Digital Business Solutions division* has been successfully helping our clients in the Asia Pacific with adaptable and innovative solutions using Microsoft technologies for over a decade. Our collaboration with Microsoft ensures that we have access to all the resources and support we need to offer our clients the latest technologies and support, including a technical services coordinator, access to the Partner Knowledge Base and other top-level benefits.

Our Microsoft technology focus spans across enterprise solutions, custom application development, application maintenance services, quality assurance and testing services. Together with infrastructure management services, business intelligence and analytics, and cloud consulting and deployment services, we can implement and manage an efficient technology framework for your organization.

The NTT advantage

We provide a suite of solutions and services to our clients in the banking and financial services, education, government, healthcare, hospitality and social services domains. Our experienced consultants enable us to provide comprehensive ICT solutions, provisioning and management of IT infrastructure and business applications, data analytics, data visualization and IT consulting services.

Our Microsoft Technology Services* have:

- developed and deployed over 150 enterprise applications to multinational corporations and governments within the Asia Pacific
- been actively involved in the design, development and implementation of solutions and services for many local and multinational organizations
- received Microsoft Gold certification and been recognized as a Microsoft Managed Services Partner
- enabled clients across government and commercial segments
- maximized ROI for our clients by leveraging offshore delivery, reducing overall costs
- been recognized as a Leader in IAOP's 2017 Global Outsourcing 100
- ISO 9001:2008 certification
