Augmentation Services

The smart way to augment the capabilities of your team

We understand that technology can sometimes move faster than the skills of your existing workforce. Headcount issues, the need to scale quickly to meet the changing landscape of a digital world and cyclical workloads can all add to the challenge.

And that's where we can help. With our Augmentation Services, you gain access to highly-skilled technology and business specialists to augment your organization's existing capabilities – for as long or short a time as you need.

We help power your organization's ICT by rapidly deploying assessed and supported business and technology experts in your workplace.

From specialists in data to those in digital, security, infrastructure, project solutions or business transformation, you can be confident in the skills of our people. All our team members are selected for the depth of their knowledge and experience in their particular field, as well as their professionalism and ability to integrate into your workplace environment. To ensure the best match, we encourage all our clients to be involved in selecting their Workforce Solutions consultants.

Our national team of ICT professionals and subject matter experts includes Solution Architects, System Administrators, Technologists, Developers, Business Analysts, Project Managers and Engineers. They can be engaged to implement, manage and support your technology requirements on a wide range of projects.

Do you need help with the following?

- Data
- Digital transformation
- Security
- Infrastructure
- Project solutions
- Business transformation.

Our Workforce Solution division specializes in workforce-as-a-solution services, allowing clients the flexibility to **augment their team** with a specialized workforce.

Harness the power of our Augmentation Services

With Augmentation Services, you remain in control. You can increase or decrease your headcount as your circumstances require, so you only pay for what you need, when you need it.

When we deploy our highly trained experts through our Augmentation Services, they are integrated into your team and under your management, while receiving full support from our wider team. You retain control over decision-making, IP and the outcomes you seek.

About Workforce Solutions, formerly Viiew, and NTT Ltd.

Workforce Solutions is a division in the Australia region of NTT Ltd. and includes the former Viiew as part of its broader expertise and capabilities. The Workforce Solution division specializes in workforce-as-a-solution services, allowing clients the flexibility to augment or strengthen their team with a specialized workforce who offer deep experience and expertise in digital, data, security, infrastructure, project solutions and business transformation. Our highly-experienced and skilled teams are supported by extensive training and enablement, ongoing technical assessments and our global network as part of NTT Ltd. All team members of Workforce Solutions are selected for the depth of their knowledge and experience in their particular field, as well as their professionalism and ability to integrate into our client's workplace environment. To ensure the best match, we encourage clients to be involved in selecting their Workforce Solutions consultants.

NTT Ltd. is a leading, global technology services provider. We work with organizations around the world to achieve business outcomes through intelligent technology solutions. For us, intelligent means data driven, connected, digital and secure. Our global assets and integrated ICT stack capabilities provide unique offerings in cloud-enabling networking, hybrid cloud, data centers, digital transformation, client experience, workplace and cybersecurity. As a global ICT provider, we employ more than 40,000 people in a diverse and dynamic workplace that spans 57 countries, trading in 73 countries and delivering services in over 200 countries and regions. Together we enable the connected future.
