Accelerate Modern Collaboration

Do you need to **address your employees, customers, and suppliers' big expectations**

when it comes to collaboration experiences?

Is **flexibility in anytime, anywhere communication,**

with quality and secure collaboration, important to your business?

Are you interested in **smarter collaboration tools**

with less complexity and with one easy purchasing plan?

Are you looking to increase your employee productivity through **new cognitive capabilities, automation and applications interoperabilities ?**

Accelerate Modern Collaboration

Cisco and NTT have created Accelerate Modern Collaboration, which combines Cisco Webex suite that includes Webex Calling, Teams, Meetings and Contact Center with NTT services to deliver a cloud-based collaboration system optimized for large - midsize businesses. It provides the essential business calling, collaboration and Contact Center capabilities you need.

With Cisco Webex Cloud and NTT services, there's no need to worry about the expense and complexity of managing a collaboration system infrastructure on your premises.

NTT's services are designed to provide more simplicity and agility value, enhanced processes, integrating with other technologies and leveraging data to drive adoption.

Accelerate Modern Collaboration

Accelerate Modern Collaboration to meet your employees' unique needs

- Transform the workplace and connected office
- Create a future-ready environment to attract and retain talent
- Enable seamless collaboration anytime and anywhere

Accelerate Modern Collaboration to optimize your business processes

- Reduce silos with rich collaboration experiences allowing all devices to integrate and interoperate
- Improve reliability and quality of workplace services for better user experience
- Greater agility and elasticity to dynamically add and subtract users
- Eliminate administrative complexity allowing IT more time to be strategic

Accelerate Modern Collaboration for smarter mobility

- Get your team to work smarter and more closely through Cloud collaboration, to ensure a faster closing sales process.
- Enable your team to collaborate in order to deliver better customer experience and optimize conversions
- You can make high-definition audio and video calls from the office, from home, or on the go.
- Share screens, files, and messages, alongside a whiteboard, to turn any call into a productive meeting.

Why Accelerate Modern Collaboration?

A secure by design global platform, as a cloud alternative to on-premises PBX systems.

A full-stack collaboration suite and the flexibility of adding and removing Contact Center agents, phones and video endpoints.

Rich collaboration experiences allowing all devices to interoperate, including any existing third-party calling clients, such as Skype for Business and Teams.

An open and intelligent user experience for good user experiences using artificial intelligence (AI), machine learning (ML), and data analytics to turn calling into cognitive collaboration.

Flexible cloud transition paths with the Cisco Collaboration Flex Plan – It simplifies the transition by giving you one way to buy Cisco Calling, whether you choose a cloud, hosted, or on-premises model.
