

Webex Video Integration for Microsoft Teams

Seamless Collaboration with Webex and Microsoft Teams

NTT offers Webex Video Integration for Microsoft Teams, which delivers seamless collaboration with Webex and Microsoft Teams without having to deploy a third-party interoperability solution.

Many modern workplaces have a mix of vendors across their collaboration and extended productivity portfolios, making interoperability and integrations crucial to enable and retain work productivity. Cisco has introduced capabilities to bridge the gap between Webex and Microsoft Teams. Webex video devices are now able to call Microsoft Teams users.

Similarly, Microsoft Teams users can talk to Webex users from the familiar Teams environment.

Our consultancy led approach, combined with long-established, high-level Microsoft and Cisco partnerships, enable us to work with you to put the integration in place; we ensure that you can leverage the best of both Webex and Microsoft Teams.

Our expert teams support you throughout your journey, from planning and onboarding to ongoing adoption and support, taking the complexity out of your hands.

One-button-to-push join experience

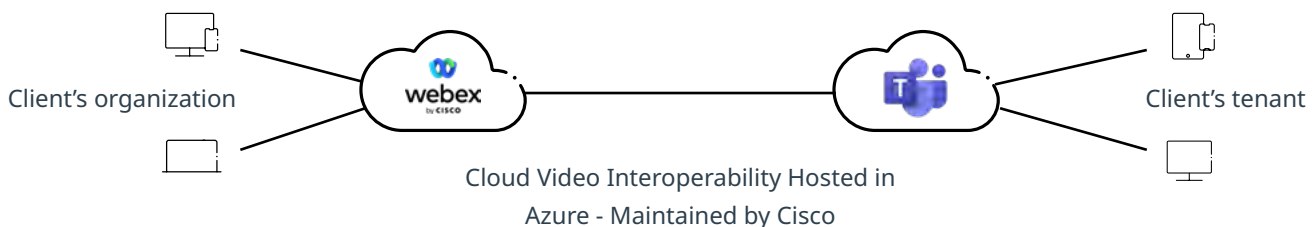

Easy to join meetings by pressing a join button when it's time to attend the meeting.

Bi-directional content sharing

Connect your laptop to a Webex Room device to share content during your Microsoft Teams meeting.

Full roster list

Gain full visibility into who joined the meeting, including other Webex Rooms and Microsoft Teams devices.

Optimized user experience

Focus on what's important to you by taking full advantage of multi-screen systems and flexible layout options.

Enhance video collaboration

Benefit from the lifelike, video-first experiences provided by Webex Rooms when you join Microsoft Teams meetings.

Easy to manage and support

Streamline the admin experience via centralized configuration and gain the ability to plan resources based on usage.

“ We’re deploying a number of collaboration solutions. NTT Ltd. provides us the backbone for **implementing those solutions**, and for our people to **be successful, using those solutions**.

Eric Taylor, Senior IT Manager, SAS

Why choose Webex Video Integration for Microsoft Teams provided by NTT?

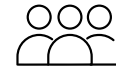

Get the best of both worlds

- A certified Microsoft Cloud Video Interop (CVI) solution ensures users join Microsoft Teams' meetings with a reliable cloud-native video interop experience.
- Both tools work seamlessly together to enable teamwork that leads to higher productivity and engaged employees.
- Remove silos to improve employee satisfaction.

Maximise ROI

- Leverage existing Cisco and Microsoft investments.
- Reduce cost and simplify support by removing the need for 3rd party solution.
- Accelerate adoption through our Cloud Communications experts.

Single partner for support

- Single partner for implementation, support, and user training to facilitate your journey to a smarter workspace.
- Single provider for Webex and Microsoft Teams.
- Our professionally certified teams ensure the right solution is designed and delivered to meet your company's goals.

Our mission is to provide world-class cloud communication solutions that enable dynamic collaboration interactions for improved workforce efficiency, productivity, and engagement.

We specialize in Unified Communications, Cloud Voice, and Digital Events, delivering tailored end-to-end consulting, value realization services, and change management to empower businesses and enable their digital workplace transformation.

With Global Tier 1 Cisco partnership as well as Microsoft Gold certified partnership, NTT is a proven top tier global cloud communications provider.
